A few words from Chair of the Officials' committee John Murray.

As late October brought the first substantial rain of the season, it can only mean that the new year and new track and field season is just around the corner.

As I begin the second year of my tenure as Chair of the Officials' Committee, my first thought is "Where did that first year go?" But, considering the accomplishments of our officials during that year, it should be no surprise that it passed so quickly. Due in no small part to the extraordinary commitment and efforts of our Pacific Association Officials, we successfully staged three National Championship competitions at three different venues in a one month period during July. Beginning with the National Club Championship in San Francisco, we proceeded thereafter to conduct the USATF National Masters Championship at Sacramento State University followed immediately by the Junior Olympics at Sacramento City College. Our Pacific Officials joined their brethren from across the country, putting in long days to assure fair competition for all.

John Murray

At the Annual Meeting held in August at UC Davis, the Revised Operating Procedures for the Officials Committee were adopted by a vote of the members present at that meeting. Our thanks for their efforts in preparing this revision go out to **Jon Siegel, Mike Sands, and Jim Hume**. The Operating Procedures are available at the Pacific Association website for your review.

Within this issue of *Turns & Distances* will be the schedule of training clinics that will be held at various sites in Northern California and Nevada in the next few months. Thanks to **Shirley Connors** and her Training Subcommittee for organizing and conducting these clinics, with the help of all of the volunteer instructors. I cannot stress enough the importance of attending one or more of these clinics; first the Introductory Classes for new officials, and second, the individual skill clinics that will provide valuable information to those seeking to advance from Association to National Certification and from National to Master. For those of you who experienced the national competitions within our Association last summer, and wish to apply for future national competitions, the certification upgrade is a necessary component. Reserve your attendance at clinics using **Active.com**, or the application form set out with the schedule. Also use **Active.com** for ordering your copies of the rule books that will be applicable next year.

Most of us have begun to receive communication from the meet directors at the colleges and universities within our Association, which means that it is time for all of us to begin putting together our calendar of meets where we will commit to work as officials during the next track season. The Calendar of meets prepared and maintained by **Bill Hawkes** is also available

to all of you at our Pacific Association website, where you can view on a weekly basis all of the meets where you can work. I hope that each of you will work as many meets as possible, first, for the athletes, and second, to alleviate the workload of your fellow officials.

While preparing that calendar, it's not too soon to complete your application for the World Masters Meet to be held in Sacramento next summer from July 6 to July 17. With the anticipated large fields comprised of Master athletes from all over the world, the need for officials is critical. This is a truly rare opportunity for all of us to experience an international competition right here in Northern California. While the competition officials will be National or Master certified, there will be many on-field volunteer positions available for Association level officials who want to take part in this extraordinary event. Applications may be downloaded at the Pacific Association website, and at the National Association website, www.USATF.org, click on Resources, then Officials. Note that applications must be postmarked **no later than** March 1, 2011 to be considered.

Heard at the track

- Bobby Hughey veteran starter and all around good guy from Pioneer and recent recipient of the 2010 Dick Barbour Award for Service from the officials suffered a hemorrhagic stroke on September 29th. Bobby has spent the past seven weeks in the hospital in Roseville rehabilitating his left arm and leg. Bob is scheduled to return to his Pioneer home on November 11th. The Hughey family according to **Jerry Collet** feels Bobby is making progress in his recovery efforts. Bob enjoys visitors and appreciates telephone calls and greeting cards. Bobby's contacts are: E-mail: Bobhughey@volcano.net, address: 16591 Meadow Vista Dr., Pioneer, CA 95666, Telephone: 209-295-3755. There is a web site out there called CaringBridge where one may write a blog about a friend or relative with health problems. Bobby's daughter is keeping us informed at <http://www.caringbridge.org/visit/bobhughey> which you can reach when you hold down the control key and click on the connection.
- **Chris Huffins**, Olympic Decathlete and former head track and field coach at the University of California Berkeley, has taken a job as an assistant track and field coach at Eastern Michigan University in Ypsilanti, Michigan
- Head track and field and cross-country coach at Cal Poly San Luis Obispo, **Mark Conover**, announced August 6th that **Kelly Strong** a former University of Washington assistant coach has taken over the same position on the San Luis Obispo campus. Ms. Strong was a very successful distance runner for Arizona State University during her collegiate career. Welcome to the Pacific Association Ms. Strong.
- **2011 Track and Field Rule Books: Dick Connors** has *2011/12 NCAA Track and Field Rule Books* for \$9.00, the *2011 National High School Federation Track and Field Rule Books* for \$9.00 each, and, in February or March, the *2011 USATF Rule Books* for \$16.00. Make checks payable to: PAUSATF.

Bob Hughey

The California Invitational Relays (the old Modesto Relays), are tentatively scheduled to be run on May 7, 2011, at Hughes Stadium on the campus of Sacramento City College. **John Murray** Officials Committee Chair has taken over the job of coordinating officials for the meet.

- **Jennifer Oliver** of Hayward, a prospective track and field official and parent of a University of California Berkeley sprinter Dash Oliver, is founder and chair of the SportsHopes foundation. The foundation publishes a very interesting newsletter dealing with high school student athletes gaining admittance to four-year colleges. To view a copy of Jennifer's newsletter, go to www.sportshopes.org. Keep up the good work Jennifer.
- **Mark Youmans**, our do-everything official from the northern Central Valley, got married October 10, at 10 AM, in Anderson, California. His bride? The former Peggy Blalock. The new Mrs. Youmans works for the Academy of Personalized Learning, a charter school, in Redding, where Mark teaches some classes, as well. Good luck and long life!
- **Bill Hawkes** reports from Stanford that the hammer cage under renovation for the past several months is now finished. Bill is very impressed with new 10 meter high doors. Stanford is one of the few venues in the U.S. that conform to the new Olympic standard.
- **Applications for working national meets in 2011**
Officials applications are available to all officials interested in working the **2011 Division II NCAA National Track and Field Championships**, May 26-29th at Stanislaus State University at Turlock, CA. Accommodation will be furnished to officials traveling over ninety miles one way to the venue. Applications are available on the internet at **PAUSATF.org** or by telephone call to Dick Connors at 650-341-6781. Deadline for application submittal is **February 1st, 2011**.

Official's applications are available to all officials and volunteers to work the **2011 World Masters Athletics Championships**, July 6th to 17th in Sacramento. Applications may be obtained on line at **PAUSATF.org**. **Phil Leake** is official's coordinator (ph: 916-863-1032). Deadline for application submittal is **March 1st, 2011**.

Association, National and Master level officials are all encouraged to apply for these two meets. If you are not available every day of the Master's Championship arrangements can be made to accommodate your schedule.

All officials are reminded that they need to have a 2011 USATF membership in order to be "certified" in 2011. Go on line to <http://pausatf.org/> and click on "Join now."

Missing From the Track

- Long time master pole vault official **Fred Arnold** passed away October. We will miss him at the track. Fred was the head pole vault official at the 1984 Olympic Games in the Los Angeles Coliseum. Over the past thirty years Fred and wife Madeleine were frequent guest officials in our association. As a memorial to his wife Fred funded the construction of the indoor track currently in use at the "I have a Dream" track meet in Fresno. **John Shirey** in his youth was mentored by Mr. Arnold.

Fred Arnold

A Tale of Three Throws...by Dick Connors

At the 2010 USATF National Junior and Seniors Track and Field Championships, in Des Moines, Iowa, I worked as National Technical Official (NTO), basically observing the work of field officials as they conducted the various events. I witnessed great officiating in several events--and near disasters in two others.

One of my events on the first day of competition was the junior women's hammer trials and finals. This competition was as close to a disaster as I have ever witnessed at a national meet. The crew members were sent out to prepare the venue one hour before the competition but did not know what to do.

When the athletes arrived for warm-ups, the circle insert was missing, the count-down clock did not work, the benches for the athletes were out of place, there were no field distance markers along the sector lines, the field lynx measuring system was set up incorrectly because of the missing circle insert, and the spectator-restraining flags were out of place. The head of the event told me afterwards that he had never visited the venue before he brought the athletes out from the clerk check-in area.

Once the pre-event set-up difficulties were resolved, the competition got under way fifteen minutes late. With the first

competitive throw six officials all rushed to the spot and got in each others way; I expected to see bodies go flying. At the end of the first flight the event referee removed three of the six officials from the field by for safety reasons. The second flight was even later starting as there was no official available to go to the clerk's check-in area to pick up the athletes. The competition was a vicious embarrassing struggle for the crew, and ugly competition for the athletes with paying spectators left to fend for themselves.

The second day of competition in the hammer featured the men's trials and finals. The crew continued to have its problems. First, the paper work was misplaced. Second, the throwing implements arrived late. Finally, there was a shortage of volunteer retrievers to bring the hammers in from the field. With a great deal of struggle, the crew completed the competition.

The third day of the meet, I was assigned to the trials and finals of the women's javelin. And here I found an event run superbly. When I arrived at the venue an hour before the scheduled competition, the six officials were already going about their tasks of preparing for the competition, the field lynx system was being tested, measuring tapes were secured along both sides of the runway, the field markers along the sector lines were in place, the volunteers were being instructed, the athlete benches and water canister with cups were in place and the throwing implements had arrived at the head of the runway.

When a national record was achieved by one of the athletes, the steel measuring tape and record form were available to the crew immediately. The event was run with dispatch in a timely manner showing respect for the

athletes and the spectators. It was a pleasure for this observer to evaluate the work of this crew in action.

The third crew that I observed fell somewhere between the first two and exhibited a steep learning curve. On the first day of competition, I was assigned to the trials and finals of the men's shot put. The head of the event had worked diligently with the crew off the field before the competition, but when the crew was sent out to prepare the venue, they were leaderless and stood around waiting to be told what to do. Upon the arrival of the event head with the competitors for warm-ups the crew got moving; putting up safety flags, testing the count-down clock, moving bench and chairs into place. All the while the athletes wanted to know where to put their bags and when the sector would be open for warm-ups. The second day of competition in the shot the women had their trials and finals. An hour before the start of the competition, the crew hit the venue running. The venue was ready and waiting for the competitors and the officials were all seated in their appropriate places for the competition.

Self-initiative by the crew-members is not something to be left home when coming to a national championship.

Regardless of the size and scope of a competition, we officials must do our home work before coming to the field, and then be prepared to do any of the jobs that are involved in a competition and not wait to be told. All officials should bring their own tool bag and rule-books to the venue. Being prepared is very important at all levels of competition. Just because an official is selected to be head of event at the national championships does not make him or her the best official in the nation. The job takes preparation and work by all.

In 2011, The Pacific Associations Officials Committee presents the following clinics.

Moving up from Association to National Level...or from National to Master Level? If you are a field event official and desire to advance from the Association to the National Level or from the National to the Master Level you are expected to attend the fundamentals class AND the advanced class in the discipline (throws, horizontal jumps or vertical jumps) where you desire to advance. Bring your 2011 USATF number and your resume with you to the advanced class.

Introduction to Track & Field Officiating...*this is an all day beginning class for NEW OFFICIALS and while most clinics cost \$13.00, this clinics costs \$35.00...but then we give you three rule books. New officials must take this class in order to become USATF certified.*

- **Morning:** Organization of the track and field community, ethics and officiating RUNNING events.
- **Lunch:** **Bring your own lunch...there is no break**...time will be spent on the paperwork and picture taking necessary to complete your certification. In order to be certified you **MUST** have USATF membership. Please bring your 2011 USATF number, your check book or \$30⁰⁰ cash. The necessary form will be supplied.
- **Afternoon:** Officiating FIELD events

Fundamentals of Field Events (the throws, horizontal jumps and vertical jumps) **is an all day class for ASSOCIATION level officials** who are likely to be organizing the event themselves and running the event with a limited number of helpers, **and a prerequisite for officials who want to advance from Association to National or from National to Master levels** **Bring your own lunch. There is no break.** Lunch time will be spent discussing problems which might arise while you are running an event.

Advanced Horizontal Jumps...*A class for NATIONAL or MASTER level officials who would like to advance or sharpen their skills. Some emphasis will be placed on the differences between working a "local" meet vs. working a "national" meet.*

Advanced Vertical Jumps...*A class for NATIONAL or MASTER level officials who would like to advance or sharpen their skills. Some emphasis will be placed on the differences between working a "local" meet vs. working a "national" meet.*

Advanced Throws...*A class for NATIONAL or MASTER level officials who would like to advance or sharpen their skills. Some emphasis will be placed on the differences between working a "local" meet vs. working a "national" meet.*

Using Hy•Tek's Meet Manager is **a four hour class** with an emphasis on:

- How to use Meet Manager software to organize and conduct high school dual/multi-team meets (complete results, scores and all) and
- Add to this a review of the changes with-in Meet Manager.v3.
- **If you bring your own laptop loaded with Meet Manager, this can enhance the learning experience—but it is not a prerequisite.**

All About FieldLynx Operation...*FieldLynx has been a Palm Pilot program to record and score field-events results; but now FieldLynx is moving to the laptop PC computer. Officials who want to work national meets are expected to know how to work FieldLynx. This is your chance to learn, and many of your local meets will offer you an opportunity to practice. All of the equipment you need will be supplied.*

All About LaserLynx Operation...*The Laser will measure your field events, but short of a national championship meet, it is the long throws which use LaserLynx for measurement. The Lynx is FieldLynx. The class will be a class and supervised use during the Stanford T&F Invitational. This is a two day class as you must learn set-up as well as use. **FieldLynx is a prerequisite.***

So you want to buy a rule book...*the officials committee as a service to its members, will buy rule books in bulk. In order to reserve one for yourself, sign up and pay on Active.com. The costs are:*

- 2011 USATF Rule Book...\$16.00 (available late February or March)
- 2011/2012 NCAA Rule Book \$9.00
- 2010/2011 IAAF Rule Book...\$12.00
- 2010 High School Rule Book...\$9.00

Annual Rules Review...*Just what it says...this is a rules year for USATF and the NCAA. Both will have a new rule book this year.*

Introduction to Clerking...*The CLERK is often an athlete's first contact with officials at the meet. Clerks are needed at all track and field, cross-country, and race walk events-- and most distance-running events as well. It is the CLERK'S job to organize the athletes into flights/heats, assure they have the correct hip numbers if those are required (and that the hip numbers are on the hip) and to get athletes to the start line and into the proper lane. There are differences in the CLERKS job from All Comer meet to league, invitational or championship meets.*

Introduction to Starting T&F Meets...*A classroom and practical clinic held in conjunction with the All Comer Meets at Davis, Los Gatos and U.C. Berkeley. After class you are expected to assist during the A/C meet. If you have equipment (pistol, ammo and loud speakers), bring your equipment. This class is appropriate for beginning officials and officials at the Association level.*

Supervised Starting...*Supervised starting for officials who have some experience. The practice is available at the U. C. Davis and Los Gatos All Comer Meets. Bring your own equipment (gun, speakers, etc.) if you have it. You should have already attended the Beginning Starting class.*

Introduction to Lap Counting...*This clinic will teach officials how to coordinate lap scoring for distance races on a track and for race walks. We will use the USATF Lap Scoring monograph prepared by George Kleeman in 2006 (and updated in 2010 to include additional lap scoring sheets and exercises). We will cover the official rules and principles of lap scoring, why good records of lap scoring are needed to certify records, the responsibilities of individual Lap Scorers, the Chief Lap Scorer, and the Special Lap Scorer, how to complete lap-scoring sheets (with blanks for 1.5-, 3-, 5-, and 10-K races), how to teach Lap Scorers to do their jobs, what to do when errors are made, and suggestions for handling lap scoring when shorthanded. We will practice the use of lap-scoring sheets for individual Lap Scorers and for the Chief Lap Scorer using examples for 3-kilometer and 5-kilometer races.*

Implement Inspection (weights and measures)...*The role of the implement inspector is to weigh and measure every athlete's throwing implements to assure that they meet the specifications of the rule books. After inspection, the implements are collected (impounded) and the inspector is responsible for getting the inspected implements to the respective field event. In the event of a record...the implement is impounded and weighed and measured again. Implement inspectors are needed at every track and field meet that includes throwing events.*

Introduction to Mentoring...*a class to ease the way for national and master-level officials to become mentors. It is one thing to want to be a new track and field official, it is another to know how to go about meeting the right people and getting invited to work a track meet. A mentor can ease the way of a new official and help assure they remain an official. National and master level officials are supposed to share their knowledge and experience and help younger officials in their associations.*

**M
o
r
e**

Introduction to Combined Events Referee...*will be conducted in conjunction with a combined event competition at UC Berkeley on March 23rd and 24th and probably at the College of San Mateo in mid April. Some classroom time will be followed by supervised practical experience during the combined event competition. As the combined event lasts two days...so does your practical experience. This clinic is NOT on Active.com. If you are interested, contact Shirley Connors at soc.tnf@att.net.*

Introduction to Umpiring and practicum...*will be conducted in conjunction with an All Comer T&F Meet at UC Davis on January 15th. Some classroom time will be followed by supervised practical experience during the All Comer meet. Meet in on the track.*

Introduction to Umpiring and practicum ...*will be conducted in conjunction with an All Comer T&F Meet at UC Berkeley on February 19th. Some classroom time will be followed by supervised practical experience during the All Comer meet. When you sign up you will be e-mailed information about parking and how to get a parking pass.*

A direct link to registration is [Register for 2011 Official's Clinics](#) (hold down the CONTROL key and click on the link.

Or use REGISTRATION: via www.active.com (hold down the CONTROL key and click on the link.

- After you get to the **Active.com** web site type in **Pacific Association** under keywords and put in nothing under the zip code cell and a date range of the day of your search to March 5th, 2011...then click SEARCH.
- Click on the green **Register Now** button.
- Unless you are already a member, click on the “C” choice **Guest Access** button.
- Accept the waiver (check the agree box), type in your birth date and “sign”/type in your name. Click on the **Agree & Continue** button.
- You are now looking at a list of all the clinics. Fill in the Participant Information at the top and click on (highlight) the radio button(s) of the clinics/book orders you want. Sign up/or not for e-mails from Active.com. Sign up/or not for magazines. Notice that if you sign up now, you will get billed for a full subscription unless you opt out later. Click on the **Continue** button.
- Next they will ask you for your credit card information. I can't go there without signing up, and I don't want to do that yet. You get the idea of how to continue.
- PRINT a receipt of the clinics you signed up for and the books you ordered.

During the National Junior Olympic Meet in Sacramento...there were people taking pictures of officials. Here is a random sample.

When you set up the high jump...mark the top of the bar.

The meet must be over for the pole vault crew is smiling.

Eric Smith spent the entire JO meet measuring the javelin.

Barbara Palma checks her results.

Don't worry...I have more pictures for future issues...

The schedule for the 2011 Pacific Associations Officials Clinics

Please use the following schedule to plan your clinics and then go to Active.com to register. If you can't bring yourself to do business "on-line" then use the paper registration form below.

American River College

U.C. Davis

Junipero Serra High School

For directions to these sites, log onto the Pacific Association Web site (PAUSATF.org); click on OFFICIALS on the right side of the page; click on TOOLS (the fifth choice under Officials Info) and then scroll down to #8...Clinic Maps.
