

## Athletic.Net & USATF Youth

USATF national office has signed a contract with Athletic.Net to become their meet registration website of choice. This means that all summer youth championship competitions will utilize Athletic.Net within the Pacific Association. This is a free service for everyone to use. One of the best benefits of this tool is that it tracks youth athletes results week-by-week and year-by-year.

For the last 10+ years the Pacific Association has been loading our meet results into this tool so it is highly likely you'll find a generic account already set up for your club if you've competed in the past within the Pacific Association. What now?

Every club and unattached athlete needs to ensure their Athletic.Net account is current. All spring youth meet directors have been encouraged to also adopt Athletic.Net for their spring meet registration to help train everyone up in the use of the tool. Here are some links you can consider visiting to learn more:

- Athletic.Net: <http://www.athletic.net/>
  - Once you make it to their home page type in the name of your club and see if your club comes up
  - It is likely you'll get a message that your club "has not posted a calendar" or "this team currently has no coaches using Athletic.net"
- USATF Region 14 club list: <http://www.athletic.net/TrackAndField/Club/USATF/West.aspx>
  - Going to this page you can quickly scroll through the list of clubs to hunt for your own
- How do you set up your club or competition calendar? Enter athletes? Register for a meet?
  - In the upper right-hand corner of all the pages is a small circle with a question mark inside it. Click on the question mark and you'll see a list of helpful documents.
  - You can also click on the Contact Us or Coach Forum's links for assistance
