Associations

Dave Shrock (president@pacific.usatf.org)

2016 USATF Annual Meeting-1-4 December in Orlando: At this year's annual meeting the president's position is up for election along with all major committees. By merit of 8300+ members, Pacific is allotted 20 delegates, 16 of which will be funded \$900.00 in receiptable expenses. The Association caucus will be held at a nearby Earl of Sandwich shop following Thursday's Opening Session. Delegation Chair Irene Herman has been contacting all committees to assure representation. For full meeting details, go to: www.usatf.org, then click on events, then Annual Meeting.

Updated Sanctions pricing: As of 1 November all USATF sanctions are under a new pricing scale. Refer to the sanctions link on the association website. Contact John or Heike if you have further questions.

Final 2016 membership numbers: Membership Chair Irene Herman reports that we completed 2016 with 8393 members, which is the most for nearly fifteen years...congratulations everyone for your hard work!

Contract renewal with Jon and Heike Mansoor: The Board of Directors are pleased to announce we have finalized an additional four-year contact with JJM and Associates: John and Heike Mansoor to manage our association until 2020. Having managed our association for 35+ years, much of our association's success and stability can be attributed to John's stewardship.

Pacific Association elections: A reminder that all Pacific officers and committee chairs election cycle begins in March of 2017 with nominations, and then a 30 day election period mid April-May. A sincere debt of gratitude goes to all current committee chairs who guide our Association's success, and all membership is asked to consider stepping up to lead our association into the Tokyo Quadrennium.

Communications Committee

Communications Committee Chair, Cynci Calvin (ccrun@ncbb.net)

USATF Member Association Email Program: USATF is encouraging its member associations to use the free mass email program it has provided. President Dave Shrock believes recommends that we become acquainted with the program and evaluate it for our use. I have begun this process and so far have discovered the following pros and cons:

- **Pros:** It's free; has a relatively straightforward learning curve; allows the sender to target current members in varying degrees of committee/sport specificity; promotes USATF branding with the use of set templates.
- **Cons:** The templates do not allow the user to modify them in ways that are unique to each association (they look like the emails are coming from the national office); the messages can only be sent to members in the association's database, which limits the ability to publicize news and activities to those who are not members; the sender must have a "@pacific.usatf.org" email address; the emails can be read by all USATF members who are using the program.

Dave and I both believe there could be some useful applications of this program. As Communications Committee Chair I now have a compliant email (communications@pacific.usatf.org) that I will be using with this program as I continue to evaluate it. For now we will continue to use Constant Contact for the bulk of our eblasts.

Email Lists on the USATF Pacific's Constant Contact Email Account: Cynci has been working with Heike at the office to have current member email lists for the different PA sport and support committees. They will soon be available in a folder labeled PA 2016 Member Emails on the Constant Contact "contact" page.

Cloud Account for California Track & Running News Contributions: Per a Strategic Plan item to work more closely with CTRN (the PA's official publication), we are exploring the use of a dropbox.com business account which can be accessed by up to five different individuals. This would allow CTRN editor Christine Johnson to have an ongoing supply of Pacific Association news and photos to use as needed for their online and print publications. They would be uploaded by up to four PA members assigned with access. We currently have a free trial account that will end the first week of December. So far myself, Dave Shrock and Christine are the only ones with access and we are trying this out and comparing it to using our personal dropbox.com accounts. The dropbox.com business account would cost \$525 per year, which includes a not-for-profit discount. Using our personal accounts would not cost the PA anything, but they are a bit more cumbersome to use since each requires sending a code to whomever needs access to specific items.

Cross Country

The 2016 Pacific Association Youth Cross Country Season continues with the Junior Olympic qualification series beginning this Sunday, November 20 at the Willow Hills XC Course in Folsom. The Region 14 Junior Olympic XC meet will be hosted by the Pacific Association this year and will be held at Willow Hills on November 27. The National Junior Olympic Cross Country Championships will be held in Hoover Alabama on December 10.

The Pacific Association has submitted a bid to host the 2018 Junior Olympic Cross Country Championships in partnership with the Reno Tahoe Winter Games Coalition. The competing bid has been submitted by the Pacific Northwest Association to be held in the Seattle area. The bids will be considered this December at the USATF Annual Meeting.

- XC GP – Season successfully completed, with the PA Champs on Sunday. Videos of that race have been posted online with links on the PA site.
- Ultra GP - With one more race to go (Quad Dipsea) the Ultra Grand Prix has the following numbers of race finishes by PA members and teams: Women 223, Men 410, Teams 119. We have had a total of 10 PA Clubs fielding teams. We have sent emails with contract forms to the 2017 Race Directors for the 2016 GP races, inviting them to participate in 2017. As we get responses we will develop the 2017 schedule. Looking forward to 2018, we expect to evolve from an Ultra Grand Prix to a MUT Grand Prix by adding Mountain and Trail 'sub ultra' races. The transition will be a pretty major undertaking so our MUT sub-committee will be working on defining and implementing it.
