

Used Timing Equipment for Sale

The Pacific Association of USATF is offering used timing equipment for sale to the highest bidder:

LOT ONE: Finishlynx Etherlynx 2000 (5L200) high-resolution, color, timer enabled camera w/ F-mount through the lens (TTL) viewer and Nikon 24-85mm zoom lens. High resolution is up to 2000 lines/sec., offering 5/10,000th sec. timing resolution. Taller body style with internal power supply uses standard IEC power cord. Misc cables, carrying case, geared head, rain guard, and tripod are included. Minimum bid \$3700.00.

LOT TWO: Microgate Linkgate EncRadio 10 (10mW standard range version) and DecRadio pair for wireless starts. (Please note, Finishlynx RadioLynx Wireless plugin required to use with Finishlynx is not included.) Minimum bid \$700.00.

Bid Process: This will be a second-price sealed bid auction. For each lot, the winning bidder will be the highest bidder (*ties broken by earliest bid received*), but the price to be paid will equal the second highest bid (*or the minimum bid if no other valid bids are received*). Submit your maximum bid with confidence that you will not overpay.

Bids will be accepted until Sunday, 7 August at 9:00pm. Submit bids via email to JR Heberle: jheberle@gmail.com, and Jason Mawdsley at treasurer@pacific.usatf.org. Preference will be given to timers or TF Clubs within the Pacific Association.

Contact John Mansoor for equip. details: Pausatf@aol.com

The successful bidder will be notified by 21 August and may collect the equipment from the PA office in Folsom. Proceeds of the sale will assist the youth committee in updating its equipment trailer.
