

How to Get Your Meets on the Pacific Association Officials Calendar

Attention High School & Collegiate Coaches, USATF Meet Directors & USATF PA Committee Chairs

Update: September 4, 2023

The Officials committee has retooled how we alert our officials on requests from you for officials to work your future Track & Field or Cross-Country events. In the past, many of you sent out information to your outdated officials list. Unfortunately, officials come and go, while we maintain an up-to-date list.

Our retooled system is simple. By having you send your “officials’ needs” request to the Officials noted below they will work as a team to see that your request is distributed to the USATF Pacific Association of Officials database and placed on the USATF Pacific Association Official’s’ calendar.

They need your requests as far in advance as possible.

When requesting officials, please provide as much information about your event as possible. (See attached – “when requesting officials”)

If an Official wishes to work at your meet they will contact the person noted in your request. The key for that contact person is to acknowledge the official’s response. Don’t keep them hanging.

Respectfully,

Robert Benoy

USATF Master Official
