We will also cover equipment needs, how to find events to work, officials best practices, uniforms, resumes, and more. While drop-ins will not be turned away, our preference is that Bill or Laura be contacted prior to the clinic. Please bring a laptop to the clinic if you have not finished the certification process. We will help you finish the process after the training.

All events are available. Please send requests for the events you wish to officiate to Laura Barger at teachkines@hotmail.com. Requests will be filled in the order received. There will be hands-on practice with the Horizontal Rails Measurement System as well as Laser Measurements for the Shot Put and Discus.
